Ceramics and Glass Collection

Accession Nr.: 17329 

Date of production: ca. 1740

Place of production: Silesia

Materials: glass

Techniques: blown; grinded

Dimensions: height: 16 cm
base diameter: 9 cm
opening diameter: 9,5 cm

The splayed funnel goblet stands on a curved, splayed stem held by a decagonal foot. The body is divided into six sides by ground lines three of them show naked figures picking apples or holding a basket of flowers. A landscape with buildings or a castle appears on two sides, in a rich framework. One side is without decoration — the space was probably reserved for initials.
