Footed cup

Ceramics and Glass Collection

Accession Nr.:	60.317.1
Manufacturer:	Salviati & Co Glass Works (Venice - Murano)
Date of production:	ca. 1873
Place of production:	Venice
Materials:	glass; opaque frosted glass
Techniques:	blown; hot-applied decoration
Dimensions:	height: 13,5 cm base diameter: 7 cm opening diameter: 6 cm

The horny foot and stem is decorated with a frill glass thread and three glass "grains" at the node. The hemispherical cup is *Römer* type, enriched with slightly moulded network. The form of the originally Rhinish glass type was fairly popular in the second half of the nineteenth century. It is interesting, that this piece combines the *Waldglas* (forest glass) type with Renaissance Venetian- Murano network decoration, called *vetro a reticello*.
