Decorative glass - The shape follows Grecian ceramic type (so-called calyx)

Ceramics and Glass Collection

Accession Nr.:	23303
Artist/Maker:	Pantocsek, Valentin Leó (1812 - 1893)
Manufacturer:	György J. Zahn glass factory (Zlatnó)
Place of production:	Zlatnó (Zlatno)
Inscription:	jelzetlen
Materials:	iridescent glass
Techniques:	blown; hot-formed; optical mould-blown
Dimensions:	height: 21,5 cm maximum width: 17,5 cm opening diameter: 13,5 cm base diameter: 10 cm

The round foot holds an extremely narrow then bulging, hollow body with a straight top and rising, loop-shaped handles on each side. The body is optically decorated, striped in its own material. The shaping of the object reflects the so-called calyx version of a Grecian ceramic type, originally used for mixing wine with water. The whole surface is iridescent.
