

# Lobster fork (lobster pick)

Metalwork Collection

**Accession Nr.:** 53.5030.1 

**Date of production:** ca. 1900

**Inscription:** ARGENTOR

**Techniques:** cast

**Dimensions:** length: 19 cm

It is made to spear lobster served in a shell. Because the lobster shell is steadied in one hand and the lobster fork is held in the other, the utensil is used only at informal meals.
