The broad, conical foot joins the body with a ring. The widening body narrows again at the neck, with a joined, protruding top rim. The foot is decorated with grey relief boughs with berries in ovals, against a purple background, enriched with vivid green oxide stains. The ovals are framed by two lines at the bottom and top of the foot. The body shows matte lilac, orange and yellow oxide stains and bright, purple vine tendrils with clusters of grapes in cameos. There are two grey, applied snail figure in high relief, one at the bottom third of side, and the other at the top third of the other side.
