>The oriental decor – included griffins, dragons, qilin and palmette-leafs – adorning the Zsolnay vase, imitates the pattern of a 13th-century North African “Saracen” (Arabic) silk fabric preserved in the Museum of Applied Arts in Vienna. The ornamentation was published in Pattern Book of Friedrich Fischbach, titled *Ornamente der Gewebe* (Hanau 1874). (Fig. 15/B – see here and here)
