

Fedeles kannácska

Metalwork Collection

Accession Nr.: 61.587.1.1-2 

Date of production: late 19th century

Place of production: **Austria** (presumably)

Inscription: hitelesítőjegye fedelének peremén beütve

Materials: **silver**

Techniques: **cast; repoussé/punched**

Dimensions: height: 8 cm
base diameter: 4,5 cm

The body of a bulging bottom and cylindrical neck stands on three bent, cast paw feet. The lid is jointed, equipped with a baluster finial on the top. The pot has a double-scroll handle and a small spout on the bottom part of the body. There is an engraved garland of leaves and flowers against a punched background, below the shoulder line, surmounted by three engraved stripes. The lid is punched.
