Csésze

Metalwork Collection

Accession Nr.:	20025.a-b
Date of production:	late 19th century
Place of production:	Great-Britain
Materials:	metal
Dimensions:	diameter: 10 cm height: 8 cm

These are copies of the two gold cups found in Vaphio, in the south of Greece, near Sparta, when excavating a tomb. The originals were made approximately in 1500 B.C. - one of them describes a scene of capturing a bull, the other the tying of the bull. The originally 10.8 cm high cups were parts of the Cretan culture now they are in the National Museum of Athens.
