A symmetrical, oval shape, with a flat surface and a slightly protruding decoration. The ornaments use folkloric motifs: a tulip and other stylized flowers, between two peacocks at the top. The enamel was originally red and blue - today only traces have remained. This buckle was exhibited at the 1905 Christmas exhibition of the Hungarian Society for Applied Arts. It was probably one of the parcel-gilt or enamelled silver jewels that were introduced by the two artist at the applied arts exhibition organized in Kaposvár between August 27 and September 20, in 1905.
