The clock stands on a plain, rectangular plinth that supports its four, long and curved legs. It is shaped like a small hut with a high roof and has four pierced, curved handles. The square dial is wider at the bottom, showing Arabic numeral. The clock has engraved, steel arms. Below and above the dial there are pierced lines and contours. The cogwheel mechanism is hidden behind the round, back door. The clock was equipped with a pendulum that was decorated with a female head.
